Ameer Blaibel

Software Developer — ASP.NET Core · C# · SQL Server

Baghdad, Iraq ameerblibal97@gmail.com blaibel.com linkedin.com/in/ameer-blaibel-670942248 github.com/Prince-b97

SUMMARY

Software developer in the IT Unit of the Iraqi Pharmacists Association, building secure, data-driven web systems with ASP.NET Core, C# and SQL Server — including license renewal, public reporting and media publishing platforms. Brings three years of banking experience in letters of guarantee, with a strong understanding of regulated, document-heavy workflows, validation and compliance.

EXPERIENCE

Assistant Programmer, IT Unit

Nov 2024 – Present

Iraqi Pharmacists Association · Baghdad

- Build backend systems and REST APIs with C# and ASP.NET Core across the full SDLC, from analysis and design to maintenance.
- Design and develop SQL Server databases, write complex T-SQL queries, and produce exportable reports that support decision-making.
- Apply security best practices: JWT Bearer authentication, ASP.NET Core Identity, role-based access control and OWASP Top 10 mitigations.
- Develop responsive front-end interfaces with HTML, CSS and JavaScript, and mobile features with Flutter and Dart.

Letters of Guarantee Officer

Oct 2021 – Nov 2024

Iraqi Islamic Bank · Baghdad

- Reviewed, issued, extended and cancelled letters of guarantee on the bank's core banking system.
- Registered guarantees and printed electronic bonds on the Central Bank of Iraq platform.
- Archived records in Laserfiche and provided technical support to the department.

PROJECTS

Media Unit Posts Dashboard — Iraqi Pharmacists Association

Oct 2026

Publishing dashboard with role-based permissions, multi-step approval workflow, scheduled publishing and an image gallery; identified and fixed API security vulnerabilities.

`ASP.NET Core 9 · EF Core · SQL Server · Azure Blob Storage`

Pharmaceutical Violations Reporting Platform — Iraqi Pharmacists Association

Apr 2026

Public platform for reporting social-media pages illegally promoting pharmaceutical products, with a review dashboard and PDF/Excel export of approved cases to judicial authorities.

`ASP.NET Core MVC · SQL Server`

Drug Warehouse License Renewal System — Iraqi Pharmacists Association

Nov 2025

Online system to review, manage and approve license renewals for private pharmaceutical warehouses, integrated with the Association's internal management system.

`ASP.NET MVC · SQL Server`

Letter of Guarantee Form Redesign — Iraqi Islamic Bank

Sep 2024

Rebuilt the form around Central Bank of Iraq instructions and removed duplicated steps to speed up review and completion.

Smartwatch Health Monitoring — Graduation Project

Jul 2021

Analyzes smartwatch health data, gives patient recommendations and sends emergency notifications.

`Visual Basic`
